## I. CLASSIFIED LIST OF ARTICLES AND REVIEWS\*

### 1. Economic theory and methodology

	Vol.	No.	Page
BECSKY, Gy.: An analysis of the economic growth in developed capitalist countries	11.	2-3.	247-262,
[BENET, I. – GÓCZÁN, L.] Бенет, И. – Гочан, Л.: Попытка разработки нового способа оценки земли	11.	2-3.	191-209.
BRÓDY, A.: The logic of market behaviour	14.	1.	49– 58.
EHRLICH, É.: Researches on problems of economic growth in Hungary in the years 1968–1974	15.	2.	241–257.
ERDŐS, P.: A contribution to the criticism of Keynes and Keynesianism	15.	2.	157–185.
ERDŐS, P.: The law of value and the real wages in capitalism	12.	3-4.	309–320.
ERDŐS, P.: On the returns principle of pricing	11.	4.	417–425.
ERDŐS, T.: Investments and economic growth	11.	4.	281–303.
INZELT, A.: Measuring the changes in the efficiency of the national economy	15.	1.	33– 44.
JÁNOSSY, F.: Vergangene Entwicklung als Basis der Planung	13.	2.	163–180.
KÁDÁS, S. – SZAKOLCZAI, Gy.: The optimal growth rate of investments and of the capital-labour ratio	12.	1.	75– 95.
NAGY, A.: Industrial projection methods in Hungary	11.	4.	381–402.
NYILAS, A.: 13 <sup>th</sup> Congress of the International Association for Research in Income and Wealth	11.	2-3.	224–235.
PÁRNICZKY, G.: Some problems of price measurement in external trade statistics	12.	2.	229–240.
SCHMIDT, Á.: Das Haushaltsgleichgewicht im Zielsystem der Volkswirtschaft	13.	1.	65– 87.
SCITOVSKY, T.: Income and happiness	15.	1.	45– 53.
STONE, R.: Economic and demographic accounts and the distribution of income	11.	2-3.	165–176.
SZABÓ, K.: Factory democracy and political economy	13.	1.	1– 18.

### 2. Mathematical economics, econometrics

BÁGER, G.: A system of models for medium-term planning in Hungary	12.	3-4.	321–334.
BROWN, A.A. – LICARI, J.A. – NEUBERGER, E.: A dynamic CES production function interpretation of Hungarian growth	11.	4.	305–324.
Csáki, Cs.: Conference on the employment of mathematical methods in agricultural economics	11.	1.	97–101.

\* Articles are, if necessary, classified into more than one subject-field.

[Csáki, Cs.] Чаки, Ч.: Линейно-динамическая модель развития сельскохозяйственных предприятий	12.	3-4.	367–389.
DÁNIEL, Zs.: The “reflection” of economic growth	15.	2.	135–155.
KADAS, S. – SZAKOLCZAI, Gy.: The optimal growth rate of investments and of the capital-labour ratio	12.	1.	75– 95.
KOVÁCS, J.: Simplified model for level-of-living planning-consistency control	11.	2-3.	177–190.
NAGY, S.: Technical progress in an econometric model of Hungary	14.	1.	59– 73.

### 3. Hungarian economy: planning and policy

BÁGER, G.: A system of models for medium-term planning in Hungary	12.	3-4.	321–334.
BALASSA, Á.: Central development programs in Hungary	14.	1.	91–108.
BALÁZSY, S.: Actual problems of the Hungarian economy as reflected in the lectures of a scientific session	15.	1.	91– 99.
BEREND, I.: Long-range development policy – interrelations between economic development and capital intensity	13.	3-4.	339–361.
BEREND, T. I.: Thirty years of Hungarian socialist economic policy	14.	2-3.	163–185.
BROWN, A. A. – LICARI, J. A. – NEUBERGER, E.: A dynamic CES production function interpretation of Hungarian growth	11.	4.	305–324.
CSEKÓS-NAGY, B.: Can the accelerated economic growth be maintained?	12.	3-4.	295–308.
DARVAS, Gy.: Major implications of long-term planning on the fifth five-year plan	11.	2-3.	149–163.
DRECIN, J.: On economic growth in Hungary on the threshold of the fifth five-year plan	15.	2.	117–133.
[DRECIN, J. – HETÉNYI, I.] Дрецин, Й. – Хетэни, И.: Несколько мыслей о будущем нашего планирования	11.	2-3.	129–148.
FALUVÉGI, L.: Economic development; economic structure, new phenomena in the world economy	14.	2-3.	145–162.
[FRISS, I.] Фриш, И.: 20 лет Института Экономики ВАН и исследования экономической политики	13.	3-4.	383–395.
HETÉNYI, I.: Salient features in the development of national planning in Hungary	15.	1.	1– 15.
HOCH, R.: Choices in planning for social infrastructure and consumption	15.	3-4.	329–342.
HUSZÁR, I.: What thirty years tell	14.	1.	1– 14.
JÁNOSSY, F.: Vergangene Entwicklung als Basis der Planung	13.	2.	163–180.
Jubilee Session of the Institute of Economics of the Hungarian Academy of Sciences	13.	3-4.	397–408.
KOZMA, F.: International division of labour and the development strategy of the Hungarian national economy	13.	1.	19– 33.
LÁSZLÓ, J.: National plan for the economy and the enterprises	14.	2-3.	221–234.
LAZÁR, Gy.: The present Hungarian economic situation and the tasks of economic policy	14.	2-3.	133–144.
MANDEL, M. – MÜLLER, J.: Aims of an export-oriented economic policy	13.	1.	35– 47.
NÉMETH, K.: Economic policy problems on the eve of the fifth five-year plan	15.	3-4.	425–440.
STARK, A.: Development of economic foresight in Hungary	13.	2.	181–200.
TARDOS, M.: Impacts of world economic changes on the Hungarian economy	15.	3-4.	277–292.
VERESS, P.: Foreign trade aspects of economic development in Hungary	12.	3-4.	335–348.

### 4. Management and control of the economy. Economic mechanism

[BAUER, T.] Баур, Т.: Противоречивость в положении предприятий в венгерском хозяйственном механизме	14.	2-3.	235–249.
BIHARI-BÁN, Zs.: Social and economic stimulation of workers	12.	2.	241–246.
FALUVÉGI, L.: Economic development; economic structure, new phenomena in the world economy	14.	2-3.	145–162.
FALUVÉGI, L.: Regulation of enterprise incomes and the system of financial incentives	12.	2.	159–170.

Jubilee Session of the Institute of Economics of the Hungarian Academy of Sciences	13.	3-4.	397-408.
LAKI, M.: Competitive situation and product pattern of Hungarian enterprises on the market of consumer goods	14.	2-3.	251-267.
RÉVÉSZ, G.: Stimulation, distribution according to work, income regulation	12.	1.	55- 73.
SZIRKA-FALUS, K.: On economic competition	13.	1.	49- 64.
SZIKRA-FALUS, K.: Some aspects of material stimulation	14.	2-3.	208-219.
TARDOS, M.: Enterprise independence and central management	15.	1.	17- 32.
